DEPARTMENT OF ZOOLOGY

APICULTURE TRAINING PROGRAMME

Date: 08/03/2019 AND 09/03/2019

Day: FRIDAY AND SATURDAY

Venue: GKVK CAMPUS

Beekeeping has contributed to rural development through the centuries by supporting agricultural production and providing honey, wax, and other products for home use and sale. It is an integral part of the human food chain as pollinators of crops.

Beekeeping is a significant sustainable and environmental sound activity since it provides nutritional, economic, ecological balance, while providing employment and income. It also acts as pollinators, maintaining mountain biodiversity and the mountain environment. India has a good potential for beekeeping and to become a major honey exporting nation.

Department of Zoology organized two days apiculture program in collaboration with Gandhi Krishi Vignan Kendra, Agricultural University. Apiculture training programme as the students have in their curriculum, to develop entrepreneurship skill among students, to make students aware of the opportunities in apiculture industry and to encourage self employment after their degree.

In two days apiculture training program students learnt about identification of different species of honey bees, different equipments used in apiculture, management and culturing of honey bees in large scale using modern methods.

Students learnt about identification & selection of areas for beekeeping. They observed the natural honey combs in the field, identification of drone, queen and workers, transferring of honey bees from natural hive to artificial hive. They also observed different tool kits for the maintenance of bee colonies the accessories like bee/covering net, Knife, smoker and hive tool are supplied as tool kits. They are very eagerly observe the extraction of honey and wax, identification of pure honey & also learned about pest and disease management of honey bees.

Visit to Apiculture department,GKVK
