DEPARTMENT OF ZOOLOGY  
DEBATE AND COLLAGE COMPETITION  
Under  
ECO CLUB

**Date & day:** 16/09/2019, Monday

**Time:** 2.30 pm

**Venue:** Zoology lab 2

**Beneficiaries:** Students of BSc, BA, BCom

The ozone layer, a fragile shield of gas, protects the Earth from the harmful portion of the rays of the sun, thus helping preserve life on the planet.

The phase-out of controlled uses of ozone depleting substances and the related reductions have not only helped protect the ozone layer for this and future generations, but have also contributed significantly to global efforts to address climate change; furthermore, it has protected human health and ecosystems by limiting the harmful ultraviolet radiation from reaching the Earth.

Department was held a competitions in view of "International Ozone Day" under Ecoclub to create awareness among students about destruction and protection of ozone layer and impact of ozone layer depletion on organisms. Many students from different streams participated with great interest.

**JUDGES : Debate competition** – Dr. S Kantharaju, Asst Prof Department of Chemistry
